

VENSTAR®

SLIMLINE PLATINUM

PLUG-IN ACCESSORIES

MODEL ACC0432

The EZ programmer accessory allows the user to quickly transfer the configuration settings from one thermostat to another. This unique accessory allows the installer to copy stored information from a thermostat. The information may be loaded into other thermostats, without the need to manually enter each item. The installer can extract programming data from a thermostat in the shop and upload it to multiple thermostats in the field. The EZ programmer accessory is an easy way to make the same program changes or change the time on multiple thermostats at the same location.

- Choose from clock, time period programming, or all data copy
- Battery backup keeps the clock and the day of the week current
- Stores data from several models simultaneously
- Compatible with thermostat models T1700, T1800, T1900, T2700, T2800, T2900 & T2900SCH.

MODELS:
**ACC0432, ACC0431 &
 ACC0430**

MODEL ACC0431

- This accessory allows for the infrared remote operation of the most basic thermostat functions.
- Unique “warmer” and “cooler” commands make this extremely simple to use.
- Compatible with thermostat models T1700, T1800, T1900, T2700, T2800, T2900 & T2900SCH.

MODEL ACC0430

- Simple, snap-in module provides humidify/dehumidify control between thermostat and HVAC unit equipped with a humidification/dehumidification system.
- Displays relative humidity level as measured at thermostat location and is compatible with thermostat models T1800, T2700, T2800 T2900 & T2900SCH.
